

ALTP-12

HIGH PH PRESOAK

OVERVIEW

A ultra-concentrated, alkaline-based presoak that penetrates and removes oily dirt, grease, and road film.

FEATURES

- Safely loosens and removes oil, dirt, grease & roadfilm from the vehicle's surface
- Foamy application
- Safe to use on all vehicle surfaces

APPLICATION

- Tunnel & rollover
- APPROXIMATE USAGE: 70– 110 mL /CAR 32:1-80:1
- Use proportioner tips (i.e. HydroMinder, Dema, etc.) in conjunction with downstream injection (i.e. Dema, venturi, etc.) to achieve final use dilution

PACKAGING

5, 30 & 55 USG / 18.9, 114 & 208L

PHYSICAL CHARACTERISTICS

Ultra-Concentrated

pH (100%): 13 - 13.6

SG: 1.11

TITRATION

Amount: 5ml

Reagent: 0.25N HCL

Dilution - Drops

35:1 - 20

50:1 - 14

65:1 - 11

80:1 - 9

95:1 - 7

110:1 - 6

125:1 - 6
